PROFESSIONAL EXPERIENCE

Plumino Precision Fermentation USA, Inc.

February 2026 - Present

FP&A Specialist | Accounting Department

Cape Girardeau, MO

- Support budgeting and forecasting cycles by maintaining and enhancing manufacturing cost models and P&L reporting in SAP, ensuring accurate cost allocation, inventory valuation and timely close activities.
- Managed SAP-based reporting and reconciliation activities by partnering with production, warehouse, maintenance and quality teams to collect operational inputs, validate data accuracy and improve reporting consistency across financial and operational processes.
- Build automated reporting packages and dashboards in Excel/Power Query and Power BI, reducing manual effort by 90% and enabling transparent, scalable performance analysis.

Swiss Re

May 2025 - August 2025

Operations & Finance Analysis Intern | Corporate Solutions, Operations Team

Kansas City, MO

- Delivered adoption analysis for 400+ operational queries across the U.S. and Canada, identifying regional usage trends, improving reporting transparency and supporting long-range operational planning initiatives.
- Performed end-to-end analysis on SOP update requests for 2 business units by extracting, validating and visualizing workflow data across multiple reporting sources, enabling business units to improve process efficiency and strengthen data integrity.
- Built driver-based forecasting models to project E&S Property business volume for 3 years using historical operational data and premium targets, supporting workforce planning and optimizing FTE allocation across core processing functions.

KPMG

October 2023 - April 2024

Junior Auditor (AI) | Financial Service Team, Audit Department

Shenzhen, China

- Supported financial statement audit procedures for IPO-stage and financial service clients by performing walkthrough testing, reconciliation support, supporting documentation review, and internal control assessments across multiple accounting processes.
- Conducted testing and analytical review procedures for financial statement accounts, including cash, borrowings, and financing-related balances, while assisting with reconciliation activities and audit working paper preparation.
- Coordinated audit support activities with client finance teams, including bank confirmation processes, control testing procedures, and financial data validation, helping ensure timely completion of audit engagements in a deadline-driven environment.
