PROFESSIONAL EXPERIENCE

Plumino Precision Fermentation USA, Inc.

February 2026 - Present

FP&A Specialist | Finance Department

Cape Girardeau, MO

- Perform weekly and monthly cost close activities in SAP, preparing cost sheets, P&L reports and gross margin analyses while conducting actual-versus-forecast variance analysis to identify business drivers and support management decision-making.
- Analyze production-line and sales gross margins across manufacturing operations, comparing actual costs and material consumption against forecasts to identify production, purchasing and operational drivers impacting profitability and cost performance.
- Partner with production, quality, maintenance and warehouse teams to analyze manufacturing cost drivers, validate SAP production reporting activities and investigate operational discrepancies, improving product costing accuracy and management reporting reliability.
- Build automated reporting workflows in Excel and Power Query that enabled monthly reports to refresh dynamically from standardized source files, reducing manual reporting time by 90% and improving reporting consistency and scalability.

Swiss Re

May 2025 - August 2025

Operations & Finance Analysis Intern | Corporate Solutions, Operations Team

Kansas City, MO

- Built driver-based forecasting models using historical trends and premium targets to project E&S Property operational volume over a three-year horizon, supporting workforce planning and resource allocation decisions.
- Conducted operational adoption and usage analysis across U.S. and Canada business units, identifying workflow trends and developing reporting insights to support operational planning initiatives.
- Performed end-to-end analysis of SOP update requests across multiple reporting sources by extracting, validating and analyzing workflow data, enabling business units to improve process efficiency and reporting effectiveness.

KPMG

October 2023 - April 2024

Junior Auditor (AI) | Financial Service Team, Audit Department

Shenzhen, China

- Supported financial statement audit procedures for IPO-stage and financial services clients by performing walkthrough testing, reconciliation support, supporting documentation review, and internal control assessments across multiple accounting processes.
- Conducted testing and analytical review procedures for financial statement accounts, including cash, borrowings, and financing-related balances, while assisting with reconciliation activities and audit working paper preparation.
- Coordinated audit support activities with client finance teams, including bank confirmation processes, control testing procedures, and financial data validation, helping ensure timely completion of audit engagements in a deadline-driven environment.
